## SPA

Since ancient times, Greeks have placed a great importance of holistic wellness practices to rebalance the body and mind, and we honor that philosophy at its fullest. Let yourself go into the hands of our professionals at our exquisitely renovated and atmospheric spa, created to offer you the relaxation, inner balance, pampering, and rejuvenation you deserve. Choose amongst our signature treatments as well as classic and exotic therapies inspired by healing and beauty practices around the world, to relieve stress, aches, blockages, or tiredness and emerge renewed!

Our expert spa staff will be delighted to advise you on customized treatments that suit your personal needs. At the spa, which originates from the Latin for *salute per aqua*, or health by water, one of the greatest pre-treatment priorities is to relax and prepare the body for hydrotherapy. Enjoy our facilities such as the heated pool, sauna and hammam for as long as you like before indulging yourself in a face or body treat. Our staff uses top quality products and certified techniques and knows how to adapt treatments for everyone.
