BENTOTA BEACH

SIGNATURE SELECTION

A Resort Shaped by Nature and Design

We warmly welcome you to a place where the calm waters of the Bentota River meet the open Indian Ocean, and time begins to slow. Set in one of Sri Lanka's most cherished coastal destinations, the resort is shaped by open spaces, natural light, and thoughtful design that allows nature to guide every experience. Discover the gentle ebb and flow of wellness and culinary, all inspired by local tradition here by the river and the sea.

A Legacy Shaped by Vision and Time

Our resort holds a special place in the story of Sri Lanka's coastal tourism. As one of the earliest resorts estabilished in Bentota. It helped shape the area into one of the island's most loved seaside destinations. Over the years, the resort has welcomed travellers from around the world, offering a retreat defined by openness, warmth, and a close connection to it's natural surroundings. This sense of timeless hospitality continues today, carried forward with care and respect for the resort's origins.

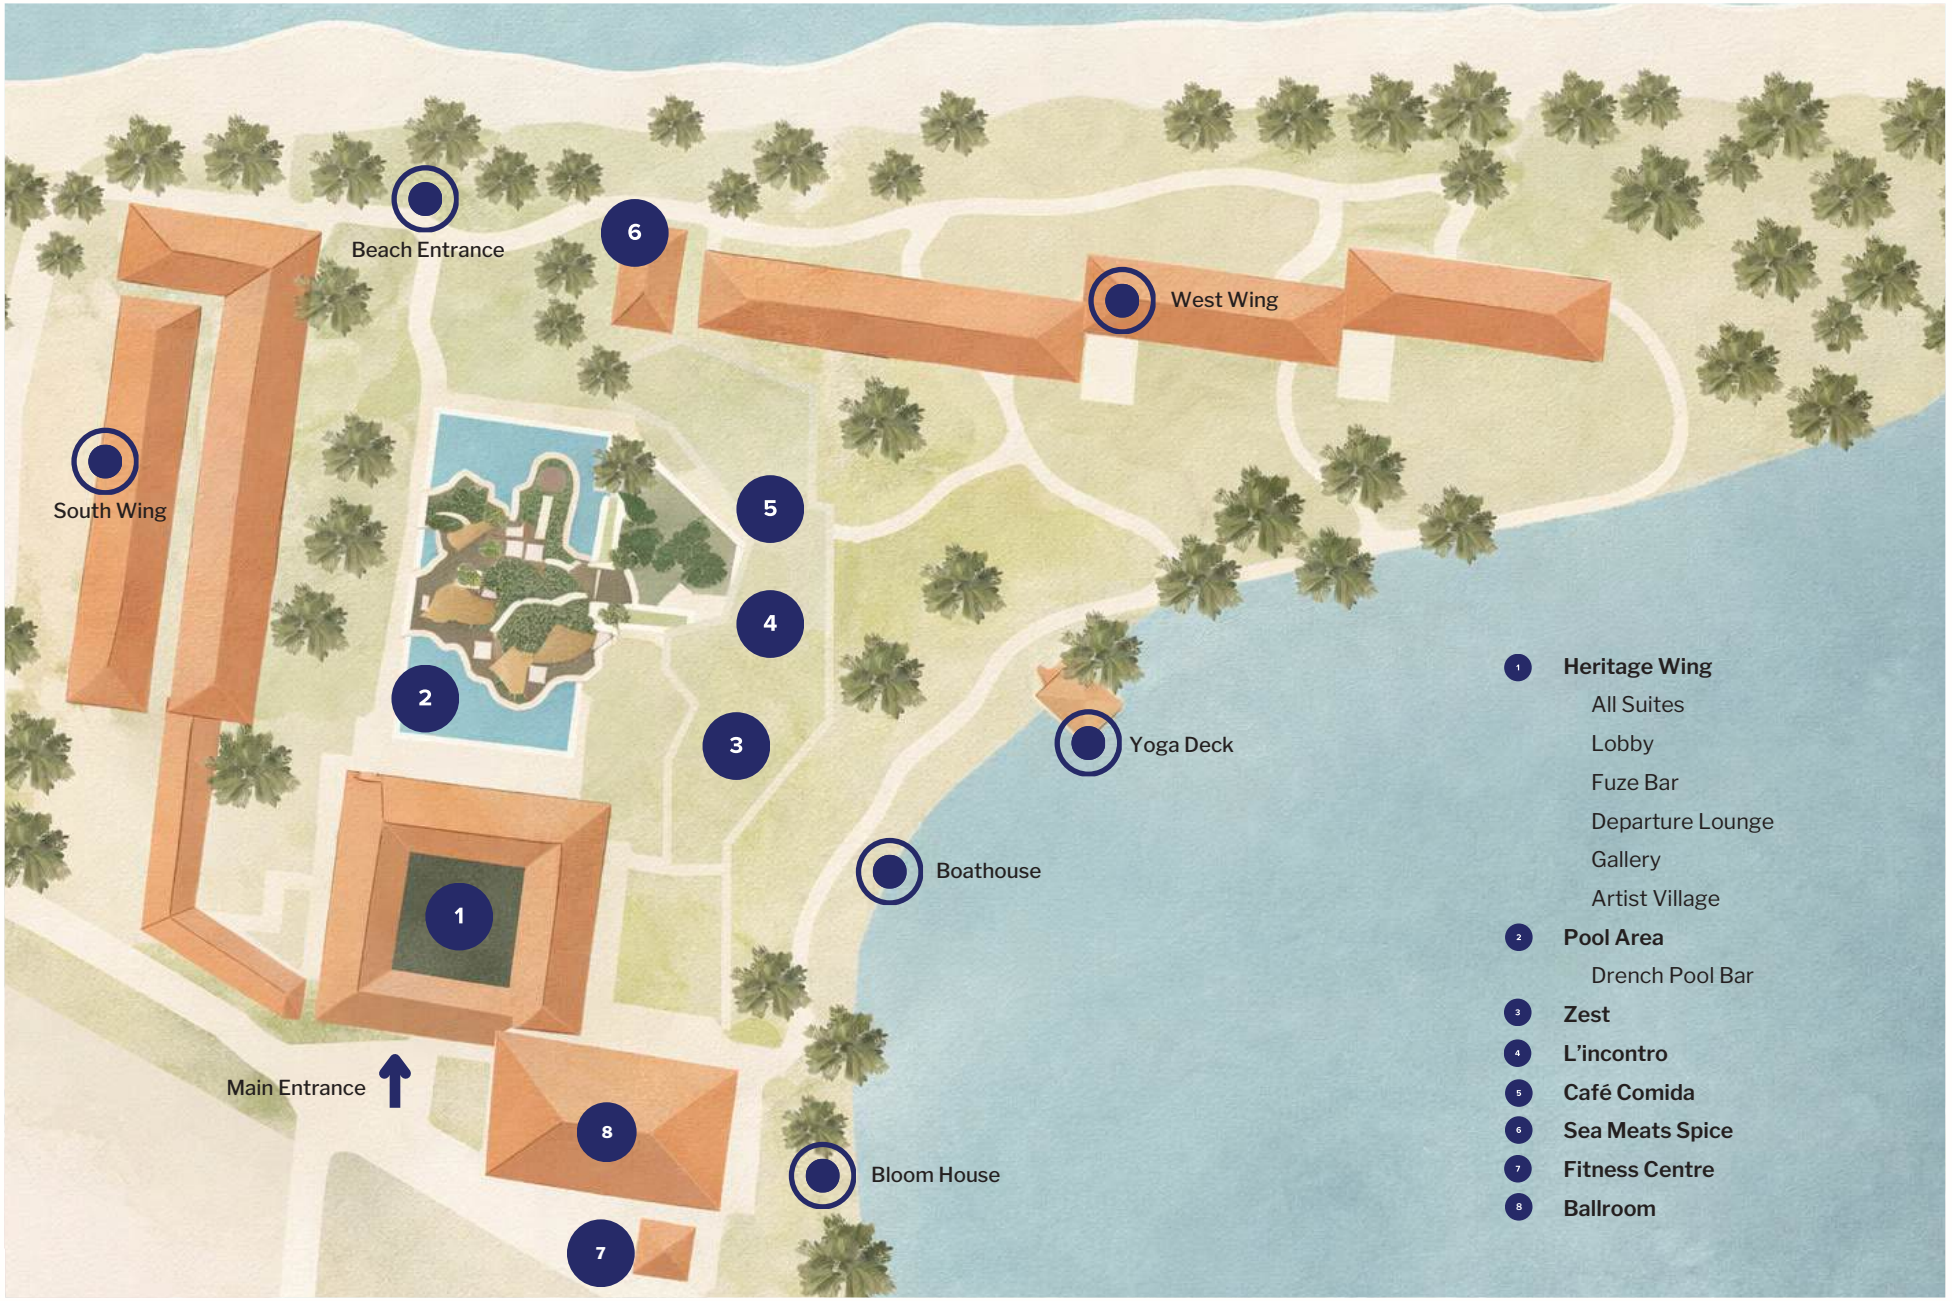

The architectural identity of the resort is inspired by the philosophy of renowned Sri Lankan architect Geoffrey Bawa, whose aproach transformed how tropical spaces are designed and experienced. His vision was centred on harmony - allowing buildings to exist alongside nature rather than dominate it. At Cinnamon Bentota Beach – Signature Selection, this philosophy is reflected through open layouts, flowing walkways, natural materials, and carefully framed views of water and greenery. The result is an architectural experience that feels effortless and enduring, enhancing your connection to the place.

Experiences

Addarahena - Farm to Fork Concept

Addarahena, a farm-to-fork initiative designed to integrate sustainable agriculture into its operations while strengthening local sourcing and community engagement.

The resort's on-site organic farm now supplies seasonal vegetables directly to its kitchens, supporting a shorter supply chain and reducing reliance on external sourcing. Guests are also able to engage with the initiative through guided harvesting experiences that highlight the journey from cultivation to consumption.

As part of the intiative, the property has also launched Ambula, a dining concept centred on traditional Sri Lankan village cuisine. Set within a rustic mud-house environment, the offering focuses on regional flavours, locally grown produce, and traditional cooking methods, positioning indigenous food culture as a core element of the guest experience.

Addarahena is supported by a closed-loop waste management system, where garden and garden waste is converted into organic compost for use on the farm. Excess compost is shared with community spaces, including the Bentota Police Station garden, extending the environmental and social impact of the initiative.

Through Addarahena, Cinnamon Bentota Beach – Signature Selection is embedding sustainability into its operational model while enhancing its value proposition around responsible tourism, local procurement, and authentic destination experiences.
